

**Notice of Project and Public Information Centre  
County of Peterborough  
Detailed Design Study for the Reconstruction of County Road 48**

**The Project**

Planmac Engineering Inc. (Planmac) has been retained by the County of Peterborough to undertake a Detailed Design Study for the reconstruction of County Road 48, from County Road 46 to Mary Street, including Ontario Street, Quebec Street, George Street and Mary Street, in the Town of Havelock (refer to below key map).

**The Process**

The Design Study will follow the planning and design process for Schedule 'A+' projects as described in the Municipal Class Environmental Assessment Document (October 2000 as amended in 2007, 2011 & 2015), published by the Municipal Engineer's Association. Schedule A+ projects are pre-approved under the EA Act and may proceed to construction, however, the public shall be notified prior to implementation. To that end, two Public Information Centres (PICs) will be held during this study to provide the public with the opportunity to discuss the project and provide input to the Project Team.

**Public Information Centre No. 1**

The first of the two PICs has been arranged to introduce the project and to present the various road reconstruction and municipal servicing renewal design concepts. This PIC will be an informal drop in format, during which time the design concept plans will be available. Representatives of the Project Team will be on hand to answer individual questions in a one-on-one format, pertaining to the Project and the design options. The second PIC will occur later in the study and will present the final design drawings. Members of the Public and Stakeholders are invited to attend the first PIC to be held as follows:

**Date:** Thursday, October 26, 2017  
**Time:** 5:00 p.m. to 7:00 p.m.  
**Location:** Lions Hall, Havelock-Belmont-Methuen Community Centre  
 39 George St. E., Havelock

Public consultation is vital and key to the success of this study and the County and Township wants to ensure that anyone interested in this study can get involved and provide input. Therefore, you are encouraged to either attend the PIC or review the materials that will be available on-line at [www.ptbocounty.ca](http://www.ptbocounty.ca) and [www.hbmtwp.ca](http://www.hbmtwp.ca) on or after October 27, 2017. To maintain the project schedule, we ask that Public input and comments on the project be submitted by November 16, 2017 to either of the Contacts listed below.

**Mr. Peter Nielsen, C.E.T.**  
 Manager, Engineering & Design  
 County of Peterborough,
