

Notice of Construction County of Peterborough James A. Gifford Causeway Widening

Please be advised that construction of the rock fill widening of the James A. Gifford Causeway (County Road 14) will commence on or about December 1, 2019, continuing until March 15, 2020. Additional construction activities will continue through the fall and winter of 2020/2021.

During daily construction activities of the rock fill widening contract, the roadway will be reduced to one traffic lane with traffic control flagging in effect. The roadway is to be reopened to two lanes of traffic at the end of each workday.

Key Plan

This is the first phase of a multi-year plan to rehabilitate the Causeway that will involve completion of the rock fill widening and the subsequent rehabilitation of the existing 2-lane roadway and Chemong Bridge.

Please note that these dates may fluctuate due to weather constraints and other factors. Every effort will be made to keep agencies and residents informed of any significant changes. Please circulate this notice to interested parties within your respective agencies. We apologize for any inconvenience and thank you for your patience.

For further updates and information, please refer to the County website at:
