

**Notice of Public Information Centre
County of Peterborough
Class Environmental Assessment
for the Rehabilitation/Replacement of the North River Bridge**

The County of Peterborough is undertaking a Municipal Class Environmental Assessment (MCEA) for the rehabilitation/replacement of the North River Bridge, within the Township of Havelock-Belmont-Methuen. The North River Bridge is located on County Road 46, approximately 800 m west of the intersection of County Road 46 and Anderson Road, and approximately 12.1 km north of the settlement area of Havelock.

The project is being initiated as a Schedule 'B' undertaking in accordance with the MCEA, which applies to municipal infrastructure projects including roads, bridges, water, and wastewater projects. The study will include a review of structure rehabilitation/replacement alternatives, and associated potential impacts on the study area environment.

Public and agency consultation is an important component of the Environmental Assessment process. Public and agency input are invited for incorporation into the planning and design of the project. A Public Information Centre (PIC) will be held on Thursday March 12, 2015 from 5:00 pm to 7:00 pm at the Lion's Hall, Havelock Community Centre, located at 39 George Street, to provide additional information, answer questions regarding the project, identify the nature of the work, and solicit feedback and comments. The PIC will consist of a drop-in type format with displays showing alternative solutions. Staff from the County and the Project Consultant will be present to answer any questions. Subject to comments received and the receipt of necessary approvals, the County of Peterborough intends to proceed with the planning, design, and construction of this project.

If you are interested in receiving further information on this project, please contact the following individuals:
