

Notice of Study Commencement Class Environmental Assessment Ward Street Widening

The County of Peterborough has initiated an Environmental Assessment (EA) to study alternatives for the widening of Ward Street in the settlement area of Bridgenorth. The project is being planned as a Schedule 'C' Class EA in accordance with the MCEA. The study area includes Ward Street (CR18) from Champlain Ave. to the James Gifford Causeway (CR14).

The objective of the project is to provide additional capacity and improve traffic flow within the Ward Street corridor for the near to medium term horizon. The project should also address active transportation opportunities in the community and provide space within the corridor for implementation of the Township Community Improvement Plans.

The first Public Information Centre (PIC) for this project will be scheduled in the spring of 2017. A PIC notice will be published at that time. Persons wishing to be included on the study mailing list should contact the Study Consultant below. Notices and updates will be posted on the County of Peterborough website:

<http://www.county.peterborough.on.ca>

There is an opportunity at any time during the EA process for interested persons to provide comments. Any comments received pertaining to the study will be collected under the Environmental Assessment Act and, with the exception of personal information, will become part of the public record.

For more information, to provide comments, or if you wish to be placed on the study's mailing list, please contact:
