

## Notice of Public Information Centre No. 2 Class Environmental Assessment Ward Street Widening

The County of Peterborough is completing a Municipal Class Environmental Assessment (MCEA) to determine the need for, and to study alternatives for, the widening of Ward Street in the settlement area of Bridgenorth. The project is being planned as a Schedule 'C' Class EA in accordance with the MCEA. The study area includes Ward Street (CR18) from Champlain Road to the James A. Gifford Causeway (CR14).

The purpose of this study is to develop a recommended plan to provide additional capacity and improve traffic operations within the Ward Street corridor over the study horizon. The plan will also address active transportation opportunities in the community and provide space within the corridor for implementation of the Township Community Improvement Plans.

You are invited to the second of two planned Public Information Centre (PIC) Meetings scheduled for the following date/time:

Thursday, May 31, 2018  
Chemong Public School Auditorium  
1029 Gore Street, Bridgenorth, ON K0L 1H0  
4:00 pm to 7:00 pm

The meeting will be an open house format, with display boards presenting background information, evaluation criteria, analysis of alternatives and preliminary designs for the Recommended Plan.

At the completion of the study, an Environmental Study Report (ESR) will be prepared and placed on the public record for a 30-day public review period. The ESR will document the Recommended Plan and the EA process.

For more information, to provide comments, or if you wish to be placed on the study's mailing list, please contact:
