

HOUSEHOLD HAZARDOUS WASTE

What is Household Hazardous Waste?

Household hazardous waste are items found around the home that cannot safely be poured down the drain into the wastewater system, or your septic system. To protect the environment and our health they also can't be disposed of in the garbage or our landfills. Examples include

NEW

We can now accept **more** types of **lighting!** All types of lighting can now be accepted including fluorescent tubes, Compact Fluorescent (CFL) bulbs, High Intensity Discharge (HIDs) bulbs, Halogen/Incandescent bulbs, LED bulbs, Miniature bulbs.

LIMITS

- ⇒ There is a limit of **100 litres** of household hazardous waste per visit.
- ⇒ Please leave some **space** at the top of any gasoline/motor oil containers so they can be poured out safely.

We cannot accept ⇒ explosives (including firecrackers and ammunition), bio-medical waste, commercial hazardous waste, lighters, drums, or pharmaceuticals and needles. Your pharmacy should accept pharmaceuticals and needles for proper disposal.
